Consigne : relie le personnage à son école en traçant un trait vertical.

ALABI

13 cartoon characters are arranged in a row. Below each character is a solid black dot. Below the row of dots are 13 school building icons, each with a solid black dot above it. Two vertical dashed lines with arrows at the bottom connect the first two characters to the first two school buildings. The remaining 11 pairs are not connected, intended for the child to draw lines.
